

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
ALASKA	1	AIA Alaska	AIA Alaska AIA150--Blueprint for America: Anchorage, Fairbanks, and Alaska Federation of Natives Programs	AIA Alaska will provide each mayor with a Sustainable Development Award at a ceremonial dinner during the AIA Alaska state convention (Juneau in 2006, Anchorage in 2007, and Fairbanks in 2008). Each local section will follow up and conduct a one-day Mayor's Problem charrette and a three-day Sustainable Community Design charrette for their community. Also, the president of the Alaska Federation of Natives will receive a Sustainable Development Award at its annual meeting, conduct a charrette, and organize a three-day symposium on sustainable development for rural Alaskan villages.
	1	AIA Alaska - Central Section	Blueprint for America, Anchorage Program	(see AIA Alaska's Summary of Initiative above)
	1	AIA Alaska - Northern Section	Blueprint for America, Fairbanks Program	(see AIA Alaska's Summary of Initiative above)
	1	AIA Alaska - Southeast Section	Blueprint for America, Juneau Program	(see AIA Alaska's Summary of Initiative above)
ALABAMA		Alabama Council/AIA		
	2	AIA Birmingham	Creating Community in Alabama: Architecture for Living Together	Alabama Council AIA and AIA Birmingham are partnering with the Alabama Architectural Foundation (AAF) to promote an education/advocacy initiative among Alabama's current and future public and business leaders. The initiative will target government officials, academia, community development organizations, non-profits and civic groups. The initiative's goal is to increase awareness of the value of good design in creating more "livable" communities, and how improved public policy enables and encourages livable communities, regardless of the community's size.
		AIA Mobile		
		AIA Montgomery		
		AIA Northeast Alabama		
		AIA North Alabama		
ARKANSAS	2	AIA Arkansas	A Place for the Homeless in our Community: Sheltering People in Public Spaces	AIA Arkansas will organize/coordinate/convene an opportunity for government officials, stakeholders and the general public to discuss and address the needs of the homeless population in our state and communities. A 'Sheltering the Homeless' Charrette will be conducted to consider the space needs of Arkansas' homeless - temporary shelter, day centers, food service facilities and ultimately, affordable housing.
ARIZONA	1	AIA Arizona	Capitol Mall Improvement District	AIA Arizona proposes to connect downtown Phoenix with the state capitol complex through urban design, active street frontage, shaded areas to walk and congregate, and new public transportation options. The project will inventory existing buildings and infrastructure, hold several regional design charrettes, work with elected officials and ASLA, and develop a master plan and policy for the mall, including how it should be implemented before the state's centennial in 2012.
		AIA Central Arizona		
		AIA Grand Canyon		
	2	AIA Phoenix	Assist the City of Phoenix in Developing the Downtown Core Guidelines	AIA Phoenix members, and ASLA members, conducted a charrette in February 2006 to strategize the residential and business development and design guidelines in the downtown core area.
		AIA Rio Salado		
		AIA Southern Arizona		
CALIFORNIA	1	AIA/California Council	California AIA150 Media Support Program	AIA California Council (AIACC) is preparing a media/public relations program to support the AIA150 activities of its 21 chapters and further its leadership role in shaping housing policies at the state and local levels. The objectives include increasing awareness of community design and sustainability challenges facing the nation's largest state, and advancing the awareness of architectural design and architects as innovators and community leaders.
		AIA California Central Coast		

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
	2	AIA Central Valley	Partnership for Prosperity: Identifying the Best Civic Amenities for the Future of the Sacramento Region	AIA Central Valley (AIACV) will focus on supporting the collaboration between AIACV, Valley Vision, and other partner organizations, local citizens and community leaders to plan for and create a unified funding strategy for civic infrastructure in the six-county Sacramento Region. These civic improvements will center on creating vibrant downtowns, enhancing quality of life, providing new economic opportunities and building the Region's international reputation.
		AIA California Desert		
	1	AIA East Bay	Community By Design: Design Knowledge Makes Good Design Patrons	AIA East Bay plans to provide educational materials on the value of good design and livable communities to community groups, elected officials, and IAA members. On April 21, 2007, the component will conduct four housing charrettes in four diverse communities focusing on the value of good design. The results from the charrettes will be presented for public information and use through PowerPoint presentations, podcasts, and video podcasts available on the component Web site.
	2	AIA Golden Empire	Masterplan of the Bakersfield Community College Northwest Campus and Surrounding Community	AIA Golden Empire will augment the work done by a planning consultant by working as the liaison between the city of Bakersfield, Calif. and the Bakersfield Community College as the college develops land it owns for a new campus and sells the remaining land to buyers engaged in education.
	2	AIA Inland California	Inland Empire Blueprint for Livable Communities	AIA Inland California will begin the systematic establishment of a sustainable demonstration of the value of design in California's Inland Empire. Our first two City Task Force Teams (CTFT) have engaged the cities of Riverside and Redlands.
	2	AIA Los Angeles	Initiative for Community Recycling in Commercial Buildings, Multi-Family Residences, and Public Spaces	AIA Los Angeles will work to implement recycling programs where none currently exist, and will seek governmental policy changes to require communities to provide the necessary support to make these programs successful. A viable recycling program for the AIA/Los Angeles Chapter office will be the catalyst and demonstration project for other offices to follow, with the goal of 100% participation from the architectural offices within the Chapter. Subsequently, this will branch out to other sectors, such as schools, restaurants, offices and multi-family residences. Concurrently, they will work with the Cities in their region to establish mechanisms for the collection and disposal of the recycled materials.
		AIA Long Beach/South Bay		
		AIA Monterey Bay		
		AIA Orange County		
		AIA Pasadena & Foothill		
	2	AIA Redwood Empire	Creating an Architectural Center to Work with the Citizens of the AIA Redwood Empire Chapter Area	AIA Redwood Empire will provide active community-oriented services to including: assistance to set up design workshops and charrettes; exhibitions to assist discussions of community issues; educational venues to work with groups and communities on design matters; and building community design awareness through exhibits and lectures.
	1	AIA Santa Barbara	A Sustainable Vision for Santa Barbara	AIA Santa Barbara members will educate their community about sustainable design, undertake a community-wide effort to create a practical vision for the community, interpret the vision into sound planning principles that promote livable communities and sustainable design, and advocate the inclusion of these principles into the city's General Plan Update for 2030. These goals will be accomplished through lectures, forums, community-based visioning sessions, and workshops to interpret the community vision.
		AIA Santa Clara Valley		
	1	AIA San Diego	Downtown San Diego: C Street Corridor Enhancement and Revitalization	AIA San Diego will help develop a master plan for the revitalization of the C Street corridor, including improvements to the landscape, architecture, engineering, and transit services as well as developing options for accommodating the large homeless population in this area. The intention is to construct at least one trolley shelter prototype and one prototype for a temporary homeless shelter.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
	1	AIA San Francisco	Community Engagement in Architecture through Walking Tours	AIA San Francisco (AIASF) is developing walking tours of historic and culturally significant neighborhoods to build public understanding of the value of architectural design. The goal is to establish a program to educate the citizenry so they may join architects as advocates for good design.
		AIA San Joaquin		
	2	AIA San Mateo County	Pipeline to Design	AIA San Mateo County will systematize the outreach and selection phases of their charrette process. Three elements key to our initiative are: Outreach to Community Organizations, Establish an Advisory Group, and Formalize Proposal and Review Process.
	1	AIA San Fernando Valley	Pacoima, Calif., Commercial Street Redevelopment and Business Improvement District Formation	AIA San Fernando Valley (AIASFV) is focused on revitalizing a commercial strip in Pacoima, California, in order to promote community beautification, economic development, and urban renewal. Working with the East Valley District of LA's Community Redevelopment Agency, community leaders and local architects will create workgroups, hold charrettes, and issue design guidelines and implementation plans.
		AIA California Sierra Valley		
		AIA Ventura County		
COLORADO		AIA Colorado		
	2	AIA Colorado North	Watch This Spot... A New Visitor's Center for Platteville	AIA Colorado North will facilitate the master planning and design of a new Visitor's Center for Platteville, an accessible and sustainable civic monument that represents the citizens of Platteville, with the assistance of civic leaders and community members alike. Additionally, this project will serve as a template and example for future AIA150 Legacy Projects in other Northeast Colorado communities faced with similar needs and will provide the seed funds for continuing this program beyond 2007.
	1	AIA Colorado South	Great Streets/Great Skyline: Creating a Shared Vision for a More Livable Colorado Springs	Colorado Springs' downtown is challenged with balancing proposals from community developers with community discussion on how the city's existing infrastructure will change to meet its growing business, cultural, and civic needs. Chapter members, working with residents and allied professionals, will develop a 3D model of downtown. This model will be available on the Internet as a basis for future planning, zoning, and design studies. Finally, as part of their efforts to revise the downtown zoning code, chapter members will develop scenarios that will define a form-based code process for use by the City Planning Department.
	2	AIA Colorado West	A Bold Vision of Sustainability in Western Colorado	AIA Colorado West will conduct community design charrettes in eight 8 major Western Colorado communities to discuss ways in which the AIA Position Statement on High Performance Buildings can be translated into reality on the Western Slope. The information generated in the charrettes will then be assimilated into booklets for each community to include in their future planning and operations. The intent of the program is to create a powerful and enduring impact in each of the communities and Western Colorado. The communities that will be targeted are: Summit County, Eagle County, Roaring Fork Valley, Steamboat Springs, Grand Junction, Durango, Telluride, and Crested Butte.
	1	AIA Denver	Documentary on Transit Oriented Development (TOD)	AIA Denver, through its Urban Design Committee, will explore the concept of livable communities through the production of a film on transit oriented development (TOD). The documentary will focus on the benefits of TOD and quality design for metropolitan Denver. The film will debut in October 2006.
CONNECTICUT	1	AIA Connecticut	Symposium on Transportation Oriented Development	AIA Connecticut will address the state's transportation crisis by bringing together an interdisciplinary group of experts to discuss and debate the issues related to transportation oriented development.
DISTRICT of COLUMBIA	2	Washington Chapter/AIA	Advisory Neighborhood Commission Resource Center (ARC)	Washington Chapter/AIA will provide un-biased information on the complex land use and building issues facing DC neighborhoods, empowering local officials with information and tools to better serve their communities. This project provides resources for the District of Columbia's Advisory Neighborhood Commissions (the most neighborhood-oriented level of government) to make more informed choices about the built environment and community planning.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
DELAWARE	2	AIA Delaware	The Wilmington Riverfront 2020: "See where we go from here...on the Riverfront!"	AIA Delaware will create a new master plan for the Wilmington riverfront. This project is following up on a 1990 Governor's Task Force on the Riverfront, a response to former Governor Russell Peterson's call to re-use and re-develop the Brownfield sites along the Brandywine and Christina Rivers, which flow through the City of Wilmington, Delaware.
FLORIDA	1	AIA Florida	Tropical Greenway	AIA Miami's Tropical Greenway initiative will use Miami-Dade County's park system to connect Biscayne Bay to the Everglades. The project will symbolically connect Greater Miami's communities with the rest of the county; cultural connectivity will be achieved at the grassroots level, with designs that reinforce the ethnicity and culture of each community.
		AIA Ft. Lauderdale		
		AIA Florida Gulf Coast		
	1	AIA Gainesville	AIA Gainesville Celebrates Design/AIA150 Initiatives	AIA Gainesville has planned a region-wide initiative to champion public awareness of architecture during 2007. The initiative will include community-based programs, public service events, and a student scholarship program. Representatives from all segments of the community, including local government, business, the University of Florida School of Architecture, building contractors, architects, and many others, will participate.
		AIA Treasure Coast		
	2	AIA Jacksonville	JaxPride Community Design Charrette	AIA Jacksonville will be partnering with JaxPride on a series of community design charrettes in various neighborhoods around the Jacksonville area. Jaxpride has conducted this program for several years on a limited scale. AIA Jacksonville plans to bring the resources of the Jacksonville architectural community into this process in order to expand the program's scope and effectiveness
		AIA Miami		
		AIA Florida Northwest		
	2	AIA Orlando	Art in Architecture: Changing the Face of Affordable Housing	AIA Orlando will create a DVD describing the development of an Art in Architecture program; working with local communities to provide affordable housing designed by architects.
		AIA Palm Beach		
		AIA Space Coast		
		AIA Florida Southwest		
		AIA Tallahassee		
	1	AIA Tampa Bay	Tampa Bay Architectural Heritage Committee: A Learning Experience--"Back to the Future"	AIA Tampa Bay will focus on preserving the architectural heritage of the Tampa Bay area by providing guidance to building owners and others on following historic restoration guidelines. Public outreach through specialized learning programs in historic preservation will be offered to the community's high school students, specifically those of Hispanic heritage in the area surrounding the cigar factories.
GEORGIA	2	AIA Georgia	Georgia Mayor's Training Program	AIA Georgia will develop an on-going annual training program to introduce the Mayors in the smaller towns and cities in Georgia to architectural and urban design issues within their community.
		AIA Augusta		
	2	AIA Atlanta	The AIA Community Forum	AIA Atlanta will build on an initiative already in progress to create a forum, the AIA Community Forum, to address similar issues facing our rapidly growing community.
		AIA Golden Isles		
		AIA Middle Georgia		
	2	AIA Savannah	Opening Doors: Providing True Recreational Opportunities for Persons with Disabilities in Our Region	AIA Savannah will study the needs and current facilities provided for persons with disabilities in their area. The plan is to evaluate the current options, obtain input from those needing accessibility, discuss facility plans with governmental bodies, and seek to establish a means by which to promote the construction or adaptation of a facility to meet the needs of the disabled in a more affirming manner.
		AIA Southwest Georgia		

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
		AIA West Georgia		
HAWAII		AIA Hawaii State Council/AIA Honolulu		
		AIA Maui		
HONG KONG		AIA Hong Kong		
IOWA	2	AIA Iowa	AIA Iowa: Iowa by Design	The Iowa by Design program will encompass visioning charrettes in six communities in Iowa over two years. In each community a design or planning issue will be identified and a team will conduct a 3-day charrette to propose a solution, or solutions, for the selected issue. These charrettes will engage design and other professionals, community experts, government officials, faculty and students in designing options for new community initiatives. And, raise awareness about design, sustainability, livable communities and the preservation of Iowa's unique architectural heritage.
	2	AIA Cedar Rapids & AIA Iowa City	Solving Community Issues Through the Charrette Process and a Study of it's Effectiveness	A model charrette will be conducted in the Cedar Rapids-Iowa City corridor to study the communities' pressing issues, as an example of the effectiveness of the charrette process, and a case study example for further study. Documentation of the state's past and future charrettes is viewed as being vital in helping to build a portfolio of challenges and opportunities each community could encounter.
	2	AIA Central Iowa	Affordable Housing Initiatives for the City of West Des Moines	The Central Iowa Architects Council is partnering with the City of West Des Moines in an effort to maintain and enhance affordable housing within their community. The City wants to encourage homeowners to retain the integrity and character of their older homes and neighborhoods. The first step is a series of discussions bringing together residents, City leaders, City staff, and other members of the community to offer input to a team of design professionals. The result of this process will be a series of design guidelines, or a pattern book, for the City and its residents to use as a resource guide.
	2	AIA Iowa City	(see AIA Cedar Rapids initiative)	
IDAHO		AIA Idaho		
		AIA Central Idaho Section		
		AIA Eastern Idaho Section		
		AIA Idaho Mountain Section		
		AIA Northern Idaho Section		
ILLINOIS	2	AIA Illinois	150 Great Places in Illinois Great Places = Great Communities	AIA Illinois, along with local AIA Illinois components, will develop a list of 150 Great Places in Illinois. This list will inform the public of the importance of the built environment and its impact on quality of life. The 150 Great Places list will be posted on the AIA Illinois web site and will be used as the basis for public education and special events throughout 2007.
	2	AIA Chicago	ZONING RE-VISION – An Interactive Toolkit for Revising Chicago's Zoning Map	AIA Chicago, at the invitation of the City of Chicago Department of Planning and Zoning, will develop a series of community workshops in order to participate in reviewing and developing zoning map updates. The plan is to develop and refine interactive computer based tools in a collaborative process while engaging elected representatives of community government, individual community representatives and the general public. A tool kit of effective representative "real" examples will be developed to illustrate talking points and to provide graphic illustration.
	2	AIA Central Illinois	Blueprint for Springfield: Designing the Future of the Historic Downtown of Illinois' Capitol City	AIA Central Illinois will provide design assistance for Springfield's historic downtown by teaming the City of Springfield's Office of Planning & Economic Development with an Architectural Design Studio at the School of Architecture, University of Illinois at Urbana-Champaign to design sustainable, livable, urban infill mixed use projects in accordance with the recommendations of a 2002 AIA Regional/Urban Design Assistance Team (R/UDAT).
		AIA Eastern Illinois		

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
		AIA Northeast Illinois		
		AIA Northern Illinois		
	1	AIA Southern Illinois	AIA150 Blueprint for the Development and Revitalization of Southern Illinois Cities	AIA Southern Illinois will focus on the revitalization of a city located in its region. Working through the Mayor's Municipal League, each member city will be asked to submit a potential design project that will further develop and revitalize their downtown area. AIA Southern Illinois will select the program based on criteria outlined in the application and will conduct a design charrette to engage community and professional partners.
INDIANA	2	AIA Indiana	Columbus, Indiana: Preserving the Past, Educating the Present, Planning the Future	Columbus, Indiana, has more buildings per capita designed by AIA gold medalists than any other in the US. AIA Indiana's multi-phased initiative will focus on the development of the public and professional education and awareness component of the Columbus Drawings and Documents Archives (CDDA); institute a biennial symposium that will focus on the Modernist architecture, landscape architecture, and urban planning and design (1950-2005), as well as the professionals, clients, and constituents who were responsible for making it an everyday reality in the Hoosier community that has been referred to as "The Athens of The Prairie;" and, explore the possibilities of developing a Columbus Design Center (CDC) of which the archives would become a major component.
		Central Southern Indiana		
	2	AIA Fort Wayne	A community adventure in urban planning and design, paving the way for the development of Arch*Venture Fort Wayne, a new design resource center.	Arch*Venture Fort Wayne will leverage recent city-wide efforts in planning and revitalization of downtown Fort Wayne, and provide additional support, reinforcement and expansion of these efforts, culminating in a new (and ongoing) design resource center for our community. Beginning with virtual and physical models of the downtown environment, the Arch*Venture Fort Wayne concept will emphasize urban planning and design, focused in a new design resource center.
	2	AIA Indianapolis	INDY 3-D: New Technologies Facilitate Citizen Participation in the Planning Process	AIA Indianapolis, a longtime partner in the city's planning process, will create a new, virtual 3-D model to assist the city's planning and development through the year 2020 and beyond. Using aerial photometry and field verification, an electronic three-dimensional model of the core of the Circle City will be linked to a geographic search engine, such as Google Earth.
	2	AIA Northern Indiana	Notre Dame Connected: Creating a 21st Century College Town	AIA Northern Indiana, working with the University of Notre Dame School of Architecture and other community stakeholders, will convene a two-day symposium to discuss and create a master plan to connect the campus with the surrounding community. The land to be developed will potentially incorporate market-rate housing, retail, restaurants, theaters, offices and green space.
		AIA Flint Hills		
KANSAS	2	AIA Kansas	The "Kansas Design Team" - Assisting Communities in Finding Solutions to Physical, Social, Environmental and Economic Problems	AIA Kansas will develop a prototypical program to be known as The Kansas Design Team (KDT). Working with the Kansas Department of Commerce, AIA Kansas will select one town for the pilot program. KDT will connect community members with each other, their leaders, architects, and planners. The community will identify issues needing to be addressed; KDT will work with residents and community leaders to develop a vision for addressing the issue.
	2	AIA Topeka	Topeka City Center Kansas Riverfront Reclamation: Developing a Model for Public Collaboration	AIA Topeka, through a series of public forums, charrettes, and student studies, will engage the public in a visioning process during the early stages of the Kansas Riverfront Development project. The component will bring together architects from across the city to work alongside civic leaders, residents, students and professionals in related fields.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
	2	AIA Wichita		AIA Wichita will work with the local city government and individual neighborhoods to design transportation hubs throughout the city and surrounding areas that create a visual identity for the city while offering an opportunity for businesses to develop. The hope is that the public transit system will become better established and a series of bike and walking paths will be created. AIA Wichita members and architecture students will participate in a design competition to create an identifying landmark for the transit hubs.
			The Identity and Interconnection of the Wichita Community	
KENTUCKY		AIA Kentucky		
	2	AIA Central Kentucky		AIA Central Kentucky will provide design support to the working-class residents of Louisville's Portland neighborhood to assist visualization in the neighborhood redevelopment plan that will strengthen the livability of their community without altering its socio-economic character.
			Redevelopment of Louisville's Portland Neighborhood: Livability, Sustainability, and Viability by Design	
	2	AIA Eastern Kentucky		AIA Eastern Kentucky has been invited to participate in the macro planning of the 2010 Alltech FEI World Equestrian Games, and will take an integral role in being part of the solution to ensure the Bluegrass Region is a better place for our residents and visitors to live, work, and play before and after 2010.
			A Living Picture for Lexington, Kentucky and the Bluegrass Region: 2010 and beyond	
	2	AIA Northern Kentucky		AIA Northern Kentucky seeks to promote discussion and debates among the community for more future parks, their location and better access to the general public in the fastest growing County in Kentucky. Specifically, to reuse a forty-five acre former Ellis Mine gravel pit in Boone County Kentucky (part of Metro Cincinnati) for a passive recreation park.
			Pit to Park – The Introduction of Sustainability in Land Reclamation	
LOUISIANA		AIA Louisiana		
	2	AIA South Louisiana		AIA South Louisiana members will collaborate with the children of the Clubs, neighbors of the clubs, university students, and local business leaders to design an overall master plan for the five Boys and Girls Club facilities. As the culmination of this visioning process, stakeholders and local building contractors will actually build significant architectural features at one of the facilities.
			Building Hope: A Partnership Between the AIA & the Boys & Girls Clubs	
	2	AIA Baton Rouge		AIA Baton Rouge will inventory an area of their area from I-110 to Airline Highway. Then, several community meetings will be facilitated to engage the community in the planning process. After the results FLOMap are published a pilot study area of approximately two blocks will be identified and an architect will be hired, through the MidCity Redevelopment Agency, to implement the principles developed in the FLOMap.
			Florida Boulevard Master Action Plan (FLOMap) – an initiative to revitalize Florida Boulevard	
	2	AIA Central Louisiana		AIA Central Louisiana, with the partner cities of Alexandria and Pineville, will explore possibilities for growth and development of its natural resources through the presentation of case studies by visiting speakers with specific knowledge and experience of various issues.
			Growing the Region: Sustainable Development in Central Louisiana	
		AIA Louisiana Coastal		
		AIA Monroe		
	1	AIA New Orleans		AIA New Orleans (AIANO) proposes to work with the New Orleans Regional Smart Growth Coalition to develop a smart code zoning overlay for the New Orleans Downtown Development District (DDD). The component seeks to promote a healthier city by developing criteria to ensure that future development patterns in the DDD remain sustainable.
			Smart Growth for the New Orleans Downtown Development District	
	1	AIA Shreveport		AIA Shreveport will raise awareness of the potential success of SBCR through a series of four public charrettes over a four- to six-month period. The SBCR methodology of building community block-by-block through systematic caring relationships has worked in other communities.
			Shreveport Bossier Community Renewal (SBCR)--Social Technology as a Foundation for Sustainable Communities	
		AIA Southwest Louisiana		

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
MASSACHUSETTS	1	Boston Society of Architects/AIA	Common Boston: Architecture and Design Festival	The Boston Society of Architects (BSA) will work with Common Boston, a group of young Boston-area professionals who organize the Architecture and Design Festival. The festival features a series of community engagement programs in Boston neighborhoods throughout the year, focused on understanding and shaping livable communities. The series will culminate in a three-day event in June 2007.
	1	Western Massachusetts AIA	SDAT Process with Latina/o Community of Holyoke, Mass.	Western Massachusetts AIA (WMAIA) proposes an SDAT initiative for the Latina/o community in the city of Holyoke. The SDAT will begin its focus from within the community as it envisions a sustainable future for the city and the surrounding area.
MARYLAND		AIA Maryland		
	1	AIA Baltimore	Baltimore Gateways	AIA Baltimore will develop a pilot project to address the area where communities on the outer ring of the city meet the inner ring communities and surrounding counties. The component plans to develop a pilot project in the area where these key communities, urban and suburban, intersect and reconstitute themselves as a hub with its own identity.
	2	AIA Chesapeake Bay	Chesapeake Bay Area Sustainable Design Guide and Resource Directory	AIA Chesapeake Bay will develop and publish a guide and resource directory for sustainable design in the Chesapeake Bay region. This guide will be an educational tool and resource for residents and business owners in our area, as well as a tool for architects and builders seeking products and resources specific to our region.
	2	AIA Potomac Valley	Greener Greenbelt Initiative	AIA Potomac Valley's initiative will be modeled on the AIA's Sustainable Design Assessment Team (SDAT) Program, following an integrated multidisciplinary planning approach and engaging the community at all levels in an open and interactive visioning process. The overall goal will be to articulate a vision for a greener Greenbelt, reinforcing livability and affordability while moving toward sustainability.
MAINE		AIA Maine		
MICHIGAN	1	AIA Michigan	Designing for Michigan's Future: A Blueprint for Creating Healthy, Safe, Livable, and Sustainable Communities	AIA Michigan will create a "Communities by Design" booklet modeled on the AIA's publication. Michigan's booklet will depict examples of how the AIA's 10 Principles for Livable Communities have been used across the state.
	2	AIA Detroit	Creating Sustainable Neighborhoods: An AIA Detroit Blueprint for Smart Growth and the Preservation of Community Character	AIA Detroit will design and execute an initiative to address design and livability issues, with a focus on Neighborhood Sustainability, which affect the communities of southeastern Michigan on both a community-specific and regional basis. The initiative will be comprised of three related forums to discuss neighborhood sustainability issues and engage architects, community leaders, business leaders, government officials and other stakeholders from each community and the region. The first forum, a large-scale discussion, will identify the specific issues in each community. The second forum, a charette, will explore feasible solutions to the identified issues. The third forum will reconvene the participants to present and discuss the solutions. AIA Detroit will serve as the facilitator for all three forums, and will gather and compile the results into a booklet to summarize the initiative, which also will act as a set of guidelines, complete with suggested funding sources and additional resources for creating neighborhood sustainability. The desired outcome of the AIA Detroit
	1	AIA Flint	AIA Flint Partnership for Community Service	AIA Flint will produce a cooperative master plan for the Whaley Children's Center and surrounding neighborhood, including a prototype building that can be constructed at low cost by volunteer labor and fulfill similar housing needs elsewhere. The residents of the center require 24-hour supervision and therapeutic services in a residential setting. The current center is too small and the surrounding community suffers from myriad socioeconomic challenges.
		AIA Upper Great Lakes		
	1	AIA Grand Valley	West Michigan Regional Urban Design Charrettes: An AIA Grand Valley AIA150 Blueprint Initiative	AIA Grand Valley (AIA GV), in partnership with the West Michigan Strategic Alliance, produced the West Michigan Regional Urban Design charrette. This partnership will again co-host multijurisdictional charrettes.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
	1	AIA Huron Valley	Ann Arbor Livability 101	AIA Huron Valley will hold a number of informative and educational seminars to promote the AIA's 10 Principles for Livable Communities. It will also create a booklet that will provide developers and the community with the tools necessary to understand and incorporate the livability concepts that are fundamental to a sustainable Ann Arbor.
		AIA Mid-Michigan		
		AIA Northern Michigan		
		AIA Saginaw Valley		
	2	AIA Southwest Michigan	Continue the Momentum & Solidify the Vision - A Community Design Charrette for the City of Albion, Michigan	AIA Southwest Michigan will organize and facilitate a Community Design Charrette in the City of Albion, Michigan. The Charrette process will aim to construct a decisions filter for the community to use in the future - does the development meet the objectives of sustainability with a balance of economic prosperity, environmental integrity and social equity? At the Charrette's conclusion, a summary slide presentation will be given as a gift to the community.
	2	AIA Upper Peninsula	Upper Peninsula Design Assistance Team (UPDAT)	AIA Upper Peninsula (UP) has made a minimum five year commitment to enable at least five communities to receive design assistance for a recognized community need. UPAIA architects will engage local government officials and fellow citizens to collaborate on a community service program that addresses a UP community's distinct need with a goal of producing a shared vision for a more livable future. An application and selection process have been established to choose one UP community to work with each year. Following selection, a team of UPAIA architects, together with a committee of stakeholders, will prepare for and conduct a two day design charrette to propose a solution to their design challenge.
MINNESOTA	2	AIA Minnesota	AIA MinnesotaConnect	AIA MinnesotaConnect will use existing relationships and apply public-process skills to focus the discussion on the future. A four-part series will engage public officials, community leaders, citizens of all ages, and architects in the processes that determine the livability of our communities; AIA Minnesota Town Hall Forum is a public discussion series.
	2	AIA Minneapolis	Reweaving The Urban Fabric	AIA Minneapolis' initiative consists of three primary components connected by a goal of reweaving the fabric of Minneapolis. The components will expand the understanding within the community of how to build livable communities, build the capacity of communities to engage effectively with the architecture, urban design and development community, and educate community leaders and the public on the Ten Principles for Livable Communities, as outlined in "Livability 101."
	1	AIA Northern Minnesota	Re-establishing Connections	AIA Northern Minnesota plans to explore the history of the area's waterways to learn what changes have been made to them over time, to foster understanding of how to better utilize the waterways, and to advocate for future connections of these natural waterways to Lake Superior.
	2	AIA St. Paul	Approaching the Central Corridor, Block by Block	AIA St. Paul's members will engage the public, local government officials, and other professionals in an exploration of the challenges and opportunities surrounding a proposed Light Rail Transit (LRT) project currently in the planning stages here in the Twin Cities. In the broadest terms, the initiative will develop an understanding of the AIA's Ten Principles for Livable Communities, make the public and local government officials aware of the importance of good design, and demonstrate the value that architects can bring to the planning process.
MONTANA		AIA Montana		
MISSOURI		AIA Missouri		
	2	AIA Kansas City	Kansas City SNAPSHOT: Envisioning the Present	AIA Kansas City is engaging in an experiment rooted in documenting the radically different places and people that make up Kansas City, Missouri. The process of this project, documented by multiple forms of media, will engage diverse neighborhoods and serve as a tool to both understand how Kansas City got to it is today, and to envision a more connected and productive future.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
		AIA Mid-Missouri		
		AIA St. Louis	The Farmers' Market on Dr. Martin Luther King Drive in The Ville Neighborhood	AIA St. Louis will partner with St. Louis City's newly-elected Alderman, O.L. Shelton, The Ville Area Housing Association, Washington University School of Architecture and selected not for profits such as ASLA, USGBC and AIAS to organize, design and build a farmers' market in one of the more depressed neighborhoods in St. Louis, The Ville.
		AIA Springfield	AIA and Kids: Young Minds Collaborating in the Building of a More Livable Springfield, Missouri	AIA Springfield and its community educational partners will champion the building of environmental awareness within the community. This initiative will merge real life environmental topics specific to our region with educational demonstrations by young practicing architects to young middle school citizens.
MISSISSIPPI	2	AIA Mississippi	Design Matters	AIA Mississippi is joining an existing partnership of Mississippi State University, the Mississippi Gulf Coast Design Center, and the College of Architecture, Art+Design and will help get information on this partnerships effort following hurricane Katrina out to the public. A series presented to the public on "Best Designed Building Practices" will not only encourage progress, but set standards for sustainable design. Fifty-two 30 to 60 second radio spots will be aired once a week for forty-five weeks.
NORTH CAROLINA		AIA North Carolina		
	2	AIA Triangle Section	AIA150 A Culture of Design Alternatives in Urbanism and Revitalization throughout the North Carolina Triangle Region	AIA Triangle, covering the Raleigh-Durham-Chapel Hill area, will create a series of community workshops, panel discussions, and publications through partnership with NC State University, UNC Chapel Hill, Duke University, and other local community-oriented design and building organizations, in order to begin highlighting emerging endeavors of the architectural community; and gather to collaborate on research to better our existing livable communities.
	1	AIA Asheville	Bridging the French Broad River: Creating Connected Livable communities, Weaving the Interstate System through Ashville	AIA Ashville's goal is to engage the area's citizens to be a part of the design process; to develop a multidisciplinary team to explore how to minimize sprawl by providing alternative development models; to maximize transportation options for the city's residents; and to create neighborhoods within a 10-minute walk of downtown that are sustainable in design and use.
	2	AIA Charlotte	Celebrating Diversity: The Creation of an International Corridor on Charlotte's Declining East Side	AIA Charlotte proposes a project to enhance the image, international character, urban design and architecture of the section of Central Avenue informally known as the "International Corridor." We will work with the property owners, the business owners, nearby residents and the larger community to address the urban fabric and architectural issues that hinder the area's development. Priorities will include how to strategically build connectivity and walkability into an area developed in the car-oriented mid-twentieth century, how to address the economic void left by development leap-frogging out to a city's periphery, and how to build an identifiable image in the minds of the larger community for a place with little recognition but much potential.
		AIA Eastern North Carolina		
		AIA Piedmont		
		AIA Wilmington		
		AIA Winston-Salem		
NORTH DAKOTA		AIA North Dakota		
NEBRASKA	2	AIA Nebraska	The Flatwater Metroplex: Envisioning Regional Design	AIA Nebraska's initiative will engage regional stakeholders in a series of local forums and charrettes to collaboratively address the region's distinct needs. The program is designed to facilitate consensus among the community, increase public awareness about building livable communities in a climate of rapid change and growth, help the community imagine solutions, and increase citizen participation.

		AIA Omaha		

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
		AIA Western Nebraska		
NEW HAMPSHIRE	2	AIA New Hampshire	A New Hampshire Model Community: Beyond the Charrette	AIA New Hampshire PlanNH have engaged communities in planning and design charrettes over the past seven to eight years. AIANH intends to continue its anti-sprawl and livable community efforts by engaging one community over a longer period of time, with the goal of obtaining permits for a multiple housing development tailored to New Hampshire's needs. This initiative will become a guidebook for northern New England states, illustrating how communities can engage their residents in a proactive process that develops planning and zoning guidelines.
NEW JERSEY		AIA New Jersey		
	2	Architects League of Northern New Jersey	150 AIA Architects in 150 Schools	Architects League of Northern New Jersey will share the AIA'S "Ten Principles for Livable Communities" with 150 sixth grade classes in 150 selected elementary schools in New Jersey. Schools will be selected by AIA/NJ Sections, representing schools from all areas. Materials, including talking points and leave behinds, will be developed for use by the architects and the presentations will occur on the same day in each school across the state.
	2	AIA Central New Jersey	150 AIA Architects in 150 Schools	AIA Central New Jersey will share the AIA'S "Ten Principles for Livable Communities" with 150 sixth grade classes in 150 selected elementary schools in New Jersey. Schools will be selected by AIA/NJ Sections, representing schools from all areas. Materials, including talking points and leave behinds, will be developed for use by the architects and the presentations will occur on the same day in each school across the state.
	2	AIA Jersey Shore	150 AIA Architects in 150 Schools	AIA Jersey Shore will share the AIA'S "Ten Principles for Livable Communities" with 150 sixth grade classes in 150 selected elementary schools in New Jersey. Schools will be selected by AIA/NJ Sections, representing schools from all areas. Materials, including talking points and leave behinds, will be developed for use by the architects and the presentations will occur on the same day in each school across the state.
	2	AIA Newark and Suburban	150 AIA Architects in 150 Schools	AIA Newark and Suburban will share the AIA'S "Ten Principles for Livable Communities" with 150 sixth grade classes in 150 selected elementary schools in New Jersey. Schools will be selected by AIA/NJ Sections, representing schools from all areas. Materials, including talking points and leave behinds, will be developed for use by the architects and the presentations will occur on the same day in each school across the state.
	2	AIA South Jersey	150 AIA Architects in 150 Schools	AIA South Jersey will share the AIA'S "Ten Principles for Livable Communities" with 150 sixth grade classes in 150 selected elementary schools in New Jersey. Schools will be selected by AIA/NJ Sections, representing schools from all areas. Materials, including talking points and leave behinds, will be developed for use by the architects and the presentations will occur on the same day in each school across the state.
		AIA West Jersey		
NEW MEXICO	2	AIA New Mexico	Architects for a Sustainable Future	AIA New Mexico will bring together all organizations that influence the built environment to band together in a common effort to implement the State of New Mexico's commitment to improving the health of its citizens, increasing the production of clean energy sources, reducing waste, conserving water and reducing greenhouse emissions and the desire to empower sustainable economic development in New Mexico.
	1	AIA Albuquerque	West Central Transit and Community Redevelopment Plan	AIA Albuquerque's West Transit and Community Redevelopment Plan will provide a methodology for the communities west of downtown to define future intermodal sustainable development. This plan will build on the city's "Central Avenue Streetscape--Urban Planning Master Plan" by educating and empowering all participants in the visioning and charrette processes to design a more livable community.
		AIA Farmington		

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
	2	AIA Santa Fe	Connecting the Dots	Connecting the Dots will create three venues for city/state officials, the Santa Fe design and construction community, schools and other interested individuals to explore Governor Richardson's challenge to green the state's public buildings and develop a strategy for successfully negotiating it. Santa Fe AIA150 will utilize Construction to provide an opportunity for this group to open the dialogue while participating in this community event. A visioning workshop will be held for interested groups and decision-makers to develop a common agenda and concepts for sustainability, and create a master calendar of city-wide 'Sustainable Design in Santa Fe' events. A series of presentations during Santa Fe Design Week will further knit together the city's design community and city/state officials and educate the public on Santa Fe and northern New Mexico's long history of building sustainable communities.
		AIA Southern New Mexico		
NEVADA	1	AIA Nevada	Blueprint for Nevada: Creating Livable Communities in 24/7 towns	AIA Nevada will initiate a statewide effort resulting in the creation and public presentation of "Blueprint for Nevada: Creating Livable Communities in 24/7 Towns." Presented to public officials in Las Vegas and Reno, the material will provide a guide for taking positive steps to enhance the livability and sustainability of each city.
	1	AIA Las Vegas	Las Vegas: Creating a Livable Community in a 24/7 Town	AIA Las Vegas will launch several events, throughout 2006 and 2007, focused on increasing public awareness about and demand for a more livable community, uniting elected officials in making improvements to the city, and restoring the city's arts district. The program will include a 24-hour town hall meeting, AIA Nevada's Livable Community Awards, and a series of charrettes to determine a specific vision and plan for Las Vegas.
	1	AIA Northern Nevada	Reno - Creating a Livable Community in a 24/7 Town	AIA Northern Nevada will launch multiple events, throughout 2006 and 2007, focused on increasing public awareness about and demand for making Reno a more livable community, uniting elected officials in making improvements to the city, and restoring its downtown. The program will include a 24-hour town hall meeting, AIA Nevada's Livable Community Awards, the Governor's Candidates Forum, and a series of charrettes to determine a specific vision and plan for Reno.
NEW YORK	2	AIA New York State	Guide to New York State: Livable and Sustainable Communities	A booklet and public relations/media campaign to develop livable communities in New York State.
	2	AIA Brooklyn	Blueprint for America-Gowanus Expressway Corridor-Tunnel and Neighborhood Revitalization Master Plan	AIA Brooklyn will engage in a study encompassing the master planning of the four (4) mile corridor known as the Gowanus Expressway, an elevated six (6) lane expressway that spans from the base of the Verrazano Narrows Bridge to the mouth of the Brooklyn Battery Tunnel. The master plan will include the design of a tunnel to take the place of present deficient raised expressway and the redesign of the corridor and neighborhoods that border the corridor.
		AIA Bronx County		
		AIA Central New York		
	1	AIA Eastern New York	South End Neighborhood Revitalization Master Plan for the City of Albany, New York	AIA Eastern New York will work with an urban planning consultant and Albany's South End Action Committee to develop a master plan for the city's South End neighborhood. This plan must address improving the neighborhood's quality of life, physical appearance, and economic conditions. A public visioning exercise will be part of the design process, and the plan will be delivered to the mayor on January 1, 2007.
	2	AIA Long Island	NYIT 2007 Solar Decathlon House to be reused as a Community Resource Center	AIA Long Island proposes to permanently install the NYIT's 2007 Solar Decathlon building design on campus and, with the assistance of the NYIT students/faculty, use it as a community resource center to promote Architects As A Resource.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
	1	AIA New York Chapter	New Housing New York, Legacy Project	AIA New York seeks to set the standard for affordable housing design and development in New York City and beyond. The AIA New York Chapter's New Housing New York (NHNY) Legacy competition project has been structured to promote an integrated design process among architects, private developers, government agencies, and community organizations. Organized in collaboration with the New York City Department of Housing Preservation and Development (HPD), the project will test new methods of procurement of a development team, emphasizing design excellence, innovation, and sustainable design.
	2	AIA Peconic Chapter	The Duck Project' Peconic Regenerative Park Study (PRPS): A Community-Supported Laboratory for Sustainable Living at Hubbard County Park (HCP)	AIA Peconic will complete a 'Feasibility Study' on how the Hubbard County Park (HCP) may greater serve the region, meeting specific local & regional educational, informational, & recreational needs. The study will create a resource inventory of the world-class wildlife habitat and the significant historic structures; and explore the potential for conservation, preservation, adaptive reuse, architectural design and integration of clean renewable energy solutions. Key stakeholders will work together to create a carbon neutral self-supporting facility functioning as an interactive "alternative energy" and "environmental" educational centre encouraging 'hands-on' involvement for public benefit.
		AIA Queens		
	1	AIA Rochester	Reshaping Rochester: The Midtown Plaza Community Design Charrette	AIA Rochester is working on a multievent educational initiative that includes a public lecture series, a community-based design charrette, and ongoing meetings with political leaders. The public lecture series began in January 2006. Planning is underway for the 2007 series and the community design charrette. (www.aiaroch.org/ReshapingRochester)
		AIA Staten Island		
	2	AIA Southern New York	Partnering with local governments and community organizations to draw attention to our landmarks for the benefit of improving our local economies.	AIA Southern New York's initiative will continue to address the preservation, restoration and/or adaptive reuse of existing structures, and develop resource information on the benefits of preserving local landmarks. The main vehicle for communicating the resource information will be a website which will identify the key landmarks across the Southern Tier, involving 10 counties, and information on how to preserve, restore and create adaptive reuses for landmarks.
	1	AIA Western New York	A New Form-Based Code for Buffalo: A Blueprint for Our Future!	AIA Western New York will work with the Buffalo, N.Y.'s city government to adopt a new approach to zoning ordinances, buildings on work already begun by the local AIA's Urban Design Committee. The goal is to develop an environment of development-friendly rules that support livable communities principles.
		AIA Westchester/Mid-Hudson		
OHIO	1	AIA Ohio	Ohio's 2020 Vision: New Perspectives on Sustainable Design	Ohio architects will lead and collaboratively create a sustainable design initiative for the state's built environment.
	1	AIA Dayton	Hands on Architecture	Through a call for entries sent to area neighborhoods and business districts, AIA Dayton will select an area that has experienced social decline and deterioration of its physical condition. Architects will work with residents and business owners to develop a cohesive physical plan for reinvigorating the selected area. Neighborhood residents will identify one of the projects, and AIA Dayton, with the help of it's strategic partners, will see that the project is constructed through its completion.
	2	AIA Akron	Design Guidelines for the Adaptation of Existing Homes for Changing Lifestyles in Various AIA Akron Communities	AIA Akron will create a booklet containing plan and elevation concepts to guide existing or potential homeowners in adapting existing older housing into vibrant spaces for today's lifestyles. The concepts in this booklet will evolve out of an idea gathering process, possibly a design competition for various age categories (grade school through graduate school). Concepts would be sought for diverse family units and entries would be viewed as a wish list for final concepts prepared by AIAS students under the guidance of AIA architects.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
	1	AIA Cincinnati	Community Engagement and Charrette for Fort Washington Way Decking	AIA Cincinnati will focus on the most significant civic design issue currently facing the region, the development of the riverfront. The members will facilitate a public visioning process to design deck covers over three blocks of interstate highway, carry out a design charrette based on the public vision, and create an implementation plan for adoption of the plan by public authorities. This will reconnect the city's urban core with its riverfront.
	1	AIA Cleveland	Improving the Development Process in Northeast Ohio	AIA Cleveland will engage in a three-part program, each of which will require research, analysis, and action. First, working with regional civic groups, members will investigate and develop criteria by which community development processes can be benchmarked. Second, using the benchmarking criteria, they will identify the communities that have best supported and produced effective development. These communities will be recognized in a regional award. Third, they will hold a symposium for the communities in their region on improving the processes, based on the identified best practices, a survey, and the benchmarking criteria. Last, they will annually revisit the survey, measure improvement, and present awards to the five most improved communities.
	1	AIA Columbus	AIA Columbus Multimodal Transit Station Design (MTSD) Initiative Focusing on Design--Past, Present, and Future	AIA Columbus will explore the past, present and future with central Ohio. Looking to the past, AIA Columbus will work with the Columbus Architecture Foundation to publish an AIA Guide to Columbus, highlighting the city's architecturally historic buildings and neighborhoods. Looking to the present, AIA Columbus' 30th annual design awards will focus on livable communities and sustainability. And, looking to the future, the AIA Columbus Livable Communities Committee will implement its seventh community design charrette, "MTSD Initiative," focusing on developing passenger facilities and bringing together multiple forms of transportation at various locations around the city.
		AIA Toledo		
OKLAHOMA		AIA Oklahoma		
	1	AIA Central Oklahoma	Phase II: Oklahoma City Bus Stop Extreme Makeover	AIA Central Oklahoma launched the Oklahoma City (OKC) Bus Stop Design Competition in the fall of 2005 in order to introduce a high level of design quality to the city's bus shelters. Phase II will include multiple competition design submissions. The redesigned shelters are expected to inspire regular use of the public transportation system, reducing vehicle traffic and promoting a healthier environment.
	1	AIA Eastern Oklahoma	Crutchfield Neighborhood Revitalization	AIA Eastern Oklahoma is working with the Crutchfield neighborhood to translate the city's new master plan into Spanish. The component will hold a design charrette focused on the Peoria Avenue corridor, a unifying element for the neighborhood. Following the charrette, the component will sponsor a design competition for transit shelters in the neighborhood. Residents rely heavily on mass transportation, but the neighborhood has no transit shelters..
		North Central Oklahoma		
OREGON		AIA Oregon		
		AIA Salem Chapter		
		AIA Southern Oregon Chapter		
	2	AIA Southwestern Oregon	Franklin Urban Riverfront Corridor Project	AIA Southwestern Oregon will focus on a design analysis of an urban corridor that connects the cities of Eugene and Springfield in Oregon's Willamette Valley. The study will examine the streetscape, neighborhoods and riverfront areas within and adjacent to this 3 1/2 mile segment of Franklin Boulevard that connects downtown Eugene with downtown Springfield.
		AIA Portland		

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
PENNSYLVANIA	2	AIA Pennsylvania	Designing Smart Growth Schools for Pennsylvania	AIA Pennsylvania and the Pennsylvania Historical & Museum Commission are co-convening a task force of private and public entities including the Pennsylvania Department of Education, Pennsylvania School Boards Association, Governor's office, Preservation Pennsylvania, 10,000 Friends of PA, Representative Freeman and Tom Hylton (Pulitzer Prize-winning journalist on sustainable communities' issues). The campaign will promote: the reuse of existing older school buildings as schools, particularly if they are historic; construction of new neighborhood schools that respect community character; construction of green schools; and adaptive reuse of abandoned schools. The campaign will consist of: a charrette at a historic neighborhood school; a legislative initiative to create a neighborhood school incentives; a website with a "how to" tool kit; a radio campaign, and education of school board members.
		AIA Bucks County		
		AIA Central Pennsylvania		
	2	AIA Eastern Pennsylvania	AIA150 Blueprint: Sustainable future for Cities	Each year a city within the AIA Eastern PA chapter will be selected as the host city in conjunction with the U.S. Conference of Mayors to focus on the city's particular attributes and needs. Collaboration between the community, local government and design professionals will be created as a task force on sustainability.
	1	AIA Middle Pennsylvania	Town & Gown Visioning: Encouraging & Sustaining Vibrant Public Spaces: South Allen Street & Pattee Mall, State College & University Park, Pa.	AIA Middle Pennsylvania will develop, with the communities of State College and University Park, a vision for future enhancement by recording the existing infrastructure and holding two charrettes. The first charrette will be a public event in downtown State College and the second will be at the School of Architecture and Landscape Architecture at Penn State. Following the charrettes, professional renderings of the proposed enhancements will be developed to aid the community's decision-making process.
		AIA Northeastern Pennsylvania		
		AIA Northwestern Pennsylvania		
	2	AIA Pittsburgh	The Pittsburgh Design Center	AIA Pittsburgh plans to buy a building to serve as a design center, recognizing the value of a one-stop design center as established in Chattanooga, Tenn. that focused on quality details and the effect that each new element has on the fabric of a city.
	1	AIA Philadelphia	Old Space - New Place	AIA Philadelphia will work with the city's arts-based organizations and individuals to connect them with off-the-radar properties for living and work space. The program will use the Internet to identify creative districts, provide guidelines for renovating properties, and serve as a connection between members of the city's growing creative community and neighborhoods where they can live and work.
PUERTO RICO	1	AIA Puerto Rico	Master Plan for the Renovation, Preservation, and Development of the Community of Aguirre, Salinas, Puerto Rico	In the latter half of the 19th century the town of Aguirre, on the southern coast of Puerto Rico, was founded as a sugar refinery. Following its purchase by American investors in 1899, Aguirre was developed as a "company town." In addition to the structures related to the harvesting and processing sugar cane were built housing complexes, a hotel, a theater, restaurants, shops, social clubs, churches, a school, a golf course, a railroad, and a harbor. Since the closing of the refinery in the 1980's the community has strived to preserve its identity and control development; in 2002 Aguirre was listed as a Historic District in the National Registry of Historic Places. AIA Puerto Rico, working with the municipal government, will sponsor the preparation of a master plan for the renovation, preservation, and sustainable development of Aguirre.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
RHODE ISLAND	2	AIA Rhode Island	Gateway's Project	AIA Rhode Island will develop a format that fosters open discussion which can then be used in any and all communities across the state. "Gateways to Newport" will focus on Newport, Rhode Island as a case study of a relatively typical but historically significant New England town facing issues of approach, access and livability within a context of a thriving tourism industry and functioning dynamic city. It will take the form of a symposium in two parts. The first forum will take place in April of 2007 and will focus on transportation challenges, and the second forum will explore the historic past of Newport in relation to the present, 21st century city.
SOUTH CAROLINA	1	AIA South Carolina	Celebrating South Carolina Community Design	AIA South Carolina will explore the role of elected officials, citizens, AIA members, and other design professionals in shaping the past, present, and future of South Carolina through a series of presentations, visioning sessions, and publications. The program will be held in conjunction with the 2006-2007 South Carolina Mayors Institute for Community Design.
	2	AIA Charleston Section	Celebrating South Carolina Community Design in Johnsonville!	AIA Charleston will convene in January 2007 in Johnsonville, South Carolina to conduct a community design charrette as part of AIA/SC's Celebrating South Carolina Community Design initiative. The AIA/SC community design charrette in Johnsonville will focus on the proposed development of a Revolutionary War park, campground, and interpretive center at the site of Witherspoons Ferry on the Lynches River, and it will make recommendations for a downtown master plan with connections to the proposed park, interpretive center and other natural areas.
	2	AIA Columbia	Celebrating South Carolina Community Design in Clearwater!	AIA Columbia will assemble an interdisciplinary design team that will engage local residents to consider options for the redevelopment of the abandoned Clearwater and Seminole textile mill properties in Aiken County, South Carolina. The team will host a series of public input and design work sessions in the style of a charrette that will take place in January 2007.
	2	AIA Grand Strand Section	Celebrating South Carolina Community Design in Chesterfield!	AIA Grand Strand and students from Clemson's School of Architecture will convene in Chesterfield, South Carolina in February 2007 to study several design issues with the goal of providing Chesterfield with a visual depiction of their town's future.
	2	AIA Greenville	Celebrating South Carolina Community Design in Greer!	AIA Greenville will attempt to establish a physical and visual link between important historic neighborhoods and a new municipal complex in Greer, South Carolina. The initiative will also consider how to extend revitalization efforts into neighborhoods while planning for a safe, attractive, and healthy future. Engaging diverse populations in a unique way will be the key to this initiative's success.
	2	AIA Hilton Head Island Section	Celebrating South Carolina Community Design in Summerton	AIA Greenville will hold a charrette in January 2007 to help Summerton, South Carolina determine a plan for guiding imminent growth in a positive direction.
	2	AIA Spartanburg	Celebrating South Carolina Community Design in Glendale!	AIA Spartanburg along with SCAPA, SCDAP, the Palmetto Conservation Foundation, the Palmetto Trust for Historic Preservation, public history students from the University of South Carolina, the Community Design Studio class from Clemson University, and local residents will convene in Glendale, South Carolina in January 2007 to develop a community wide master plan using a charrette-style process. The goal of the Glendale master plan will be to develop ideas and design solutions that enhance economic vitality, improve quality of life and encourage active living, while restoring and improving the community's natural and environmental characteristics.
SOUTH DAKOTA	2	AIA South Dakota	South Dakota Community Design Initiative (SDCDI): Design as a Catalyst for Change in Rural Communities to Ensure a Sustainable Future	AIA South Dakota, in partnership with The Rural Housing Collaborative, will use citizen-embraced design as a centerpiece for rural community engagement. Through local forums, individual interviews and a 2-segment charrette, and by incorporating AIA's 10 principles of livable communities, a community's shared vision for it's future will be produced.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
TENNESSEE	2	AIA Tennessee	AIA Tennessee Disaster Preparedness Program	AIA Tennessee will develop a statewide AIA Tennessee Disaster Preparedness Plan that will provide guidelines on how member architects can assist in disaster recovery in Tennessee. Efforts will include AIA members, community and government organizations, as well as research assistance from the University of Tennessee. Anticipated outcomes include a data base of information, a website, and guidelines for disaster recovery.
	2	AIA Chattanooga	Master Planning for the Chattanooga Community Resource Center for Homeless Individuals and Families	AIA Chattanooga will look work to integrate the Chattanooga Community Resource Center for Homeless Individuals and Families into the neighborhood and to illustrate the impact of architecture on social issues; specifically homelessness and great neighborhoods. AIA members will provide pro-bono planning and design services to the city.
	1	AIA East Tennessee	Magnolia Avenue Corridor Study: A Revitalization Initiative for East Knoxville	AIA East Tennessee is beginning a study and implementation plan for Magnolia Avenue, the main east-bound corridor connecting downtown Knoxville with east Knoxville. The goal of the study is to provide a blueprint for the public and private sectors as they seek to invest in the revitalization of this corridor. The initiative will also include a site-specific improvement project, carried out by AIA East Tennessee members.
	2	AIA Middle Tennessee	Celebrate the AIA 150 by creating a vision for quality growth in Middle Tennessee for Historic Town Centers, Rural Open Areas and Historic Hamlets.	AIA Middle Tennessee will hold charrettes in three communities which are threatened by unprecedented rapid growth.
	1	AIA Memphis	Memphis Regional Design Center (MRDC): Creating a Civic Forum for the Promotion of a Sustainable Livable Community	AIA Memphis seeks to establish a civic design center serving the needs of the metropolitan area. This center will function in five roles: as a forum, a clearinghouse, an advocate, an educator, and a resource.
		AIA Northeast Tennessee		
TEXAS	2	Texas Society of Architects/AIA	The Shape of Texas Study of Place	The Texas Society of Architects will adapt the 390 episodes of "The Shape of Texas" for use as K-12 education tools, and promote their use by teachers.
		AIA Abilene		
		AIA Amarillo		
		AIA Austin		
		AIA Brazos Chapter		
	2	AIA Corpus Christi	Oso Creek Corridor Guide Line Pattern Book	AIA Corpus will create a guide line pattern book for all future development and parks along the Oso Creek.
	2	AIA Dallas	A Citizens' Planning Academy for the City of Dallas	AIA Dallas will develop a Citizens' Planning Academy to support a milestone achievement for the City of Dallas – the adoption of its first modern Comprehensive Plan (CP). The Academy will engage the public by elevating awareness, educating, and perpetuating citizen involvement and commitment to a sustainable future for the City.
		AIA El Paso		
	2	AIA Fort Worth	Strategies for Growth: Empowering Outlying Communities	AIA Fort Worth will provider tools to assist the smaller cities surrounding Fort Worth in developing strategies and policies that can address the issues relating to rapid growth and economic development, and to encourage the highest possible level of livability through the promotion of good design and planning.
	2	AIA Houston	Adventures in Architecture: A One Week Summer Camp for Near Northside Middle School Students	AIA Houston will develop a program for 25 middle school students titled 'Adventures in Architecture.' This program will be a five-day architectural learning experience and the curriculum will focus on the Northside neighborhood, allowing students to relate architectural concepts to an area they know. AIA Houston intends to expand this program each year to include a larger number of students from other underserved neighborhoods.
		AIA Lubbock		
		AIA Northeast Texas		

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
	1	AIA Lower Rio Grande Valley	Penitas, Texas: Vision 2010	AIA Lower Rio Grande Valley is focusing on implementing a planning process for sustainable growth and development in the city of Penitas, Texas. The plan includes working with the community to incorporate its vision and transforming an existing park into a World Birding Center site.
	2	AIA San Antonio	KIDS - An Initiative of the Center for Architecture and Design	The Architectural Foundation of San Antonio will administer the KIDS (Kids Initiating Design Solutions) program. The educational goals of the KIDS program are: to expose students to architecture and community design; to provide students with opportunities for curriculum enrichment using the built environment for the application of mathematics, science, language arts/literature, social studies, and art; and to teach students in public schools critical and analytical thinking, problem solving, spatial understanding and visualization and verbal communication and presentation skills.
		AIA Southeast Texas		
		AIA Waco		
		AIA Wichita Falls		
		AIA West Texas		
UNITED KINGDOM		AIA London/UK		
UTAH	2	AIA Utah	Downtown Rising: Visualization and Dissemination	AIA Utah, in partnership with the Salt Lake City Chamber of Commerce and the University of Utah College of Architecture + Planning to guide, will inform and document a visioning process called 'Downtown Rising' (DR). AIA Utah will contribute to this effort in three ways: participate in 'visioning teams' under DR auspices; sponsor and moderate a public exhibition and panel discussion of the design proposals; and design, publish and disseminate posters and DVDs featuring the projects and written information.
		AIA North Utah		
VIRGINIA	2	Virginia Society AIA	Livable Communities for Virginia	The Virginia Society AIA, in collaboration with the Virginia Center for Architecture (VCA), will develop an exhibit based on the AIA's 10 Principles for Livable Communities and the AIA Public Policies. The exhibit will showcase the Blueprint for America initiatives of Virginia's five local AIA chapters and will tour to a venue in each chapter area following its initial run at the VCA in Richmond. And, they will develop "Livable Communities" teacher resource packets for school students based on the 10 Principles, and following the Standards of Learning Guidelines of the Virginia Department of Education.
		AIA Blue Ridge Chapter		
		AIA Central Virginia		
	2	AIA Hampton Roads	Affordable, Sustainable, Workforce Homes in Hampton Roads	AIA Hampton Roads will have an open competition to all focusing on affordable, sustainable workforce housing. The visioning process and the designed images will be collected and published as prototypes for current and future planning.
	2	AIA Northern Virginia	Forum at the National Museum of Women in the Arts and School Charrette at the National Building Museum.	AIA Northern Virginia will conduct a forum at the National Museum of Women in the Arts; providing multiple voices to the possibilities raised by the Ten Principles and seeking to create dialog exploring the impact of women minority architects in our community. And, the component will conduct an architectural school charrette at the National Building Museum.
	2	AIA Richmond	Upper Mattaponi Native American Tribal Grounds Master Plan for a Sustainable Future	AIA Richmond will complete a legacy project with a strong tie to Jamestown's 400th anniversary celebration in 2007. This project will develop a master plan for the Upper Mattaponi Indian Tribe, utilizing the AIA 10 principles for sustainable design, through a series of design charrettes and presentations with tribal leaders and AIA members. Following a documentation effort a final presentation will be made to the tribe prior to unveiling it to the public during Architecture Week 2007.

STATE	RND #	COMPONENT NAME	TITLE of INITIATIVE	SUMMARY of INITIATIVE
VERMONT	1	AIA Vermont	The Vermont Tool Box - An initiative to strengthen traditional settlement patterns in Vermont	AIA Vermont will offer citizens the tools to assess community qualities, envision how development can support and extend those qualities, and, most important, realize the vision of Vermont's traditional development pattern of compact villages and urban centers surrounded by open countryside.
WASHINGTON	1	AIA Washington	Legislative Legacy for a More Livable and Sustainable Washington	AIA Washington Council (AIA/WA) will work with a broad group of stakeholders to develop a legislative agenda that can be implemented in 2007. Together the stakeholders will identify priorities, conduct opinion surveys of key public opinion leaders, craft a final agenda based on the results of focus groups and opinion surveys, do media outreach, and work with lawmakers to implement the plan.
		AIA Central Washington		
		AIA Northwest Washington		
	1	AIA Seattle	AIA150 on the Water: Mobilizing Community Design Projects on Waterfronts throughout the Greater Puget Sound Region	AIA Seattle is partnering with community groups, design and building organizations, and K-12 youth to highlight architects' community endeavors and collaborations to create livable communities that focus on care of water resources as a guiding principle.
		AIA Spokane		
	2	AIA Southwest Washington	Community Connections in Southwest Washington	AIA Southwest Washington will conduct a series of livable community charrettes in conjunction with a broad spectrum of local organizations, government officials, and concerned citizens. Two communities have been identified for the initial focus, Tacoma and Olympia.
	1	AIA Vancouver Washington	Vancouver USA Streetcar Feasibility Study	AIA Vancouver has invited the City of Vancouver to partner in drafting a shared vision to engage the community in improving the livability of Vancouver. The plan is to introduce a streetcar loop in the downtown in order to provide sustainable expansion in the future, connect all of the downtown amenities, provide an alternative transportation option, and encourage community partnerships.

	1	AIA Milwaukee	Reweaving the Neighborhood Fabric: How Modular Housing Can Build Affordable and Dignified Communities	AIA Milwaukee will bring well designed, affordable, sustainable, and accessible modular housing to three neighborhoods in Milwaukee, Racine, and Waukesha, where affordable housing is extremely scarce. The first three dwellings will be completed and turned over to their owners beginning in February 2007 and continuing through 2008. The entire project will be documented in a publication titled "Reweaving the Neighborhood Fabric."
WEST VIRGINIA	2	West Virginia Society of Architects/AIA	ARCHITECTURE FOR KIDS	AIA West Virginia has developed a program titled 'Architecture for Kids' to introduce elementary school children to the concepts of architecture and the built environment, with the target students enrolled in the 4th through 6th grades. The program will be introduced to county art education and curriculum development administrators in all 55 counties throughout West Virginia with a packet containing a Program Booklet complete with lesson plans and activity sheets, and "Architecture in Education: A Resource of Imaginative Ideas and Tested Activities", published by the Foundation for Architecture, Philadelphia.

WYOMING	1	AIA Wyoming	Livable Communities Summer Design Camps	AIA Wyoming will develop summer design camps; the "campers" will be 7th-12th grade students and the "counselors" will be a multi-disciplinary group of design professionals. In preparation for the camps, the design professionals will work with state-wide elected officials and educators to identify possible charrette topics. The goal is to inspire a new generation of informed professionals who can advocate for a strong commitment to good design and expanded state-wide educational opportunities.
